

Over 38 Million Belkin Surge Protectors in use Worldwide!

SURGEMASTER® SURGEPROTECTION

SURGE, SPIKE AND LIGHTNING SURGE PROTECTION

Power surges and lightning strikes are not the only things that can damage your home electronic equipment. Simply switching appliances on and off can create electrical imbalances that cause cumulative, permanent damage to your computers, peripherals and electronic equipment.

Our decades of research and power protection development have led us to the release of this breakthrough SurgeMaster® series. Using advanced design elements and top-quality construction as well as superior circuitry, the SurgeMaster® offers the most complete protection from power surges, AC contamination and spikes available. As the leading developer of surge protection solutions, Belkin engineers rigorously tests all its products to ensure your equipment will be safe from harmful electrical imbalances, whatever your configuration and whichever grade you choose.

The Belkin SurgeMaster® is your premiere solution for clean, safe power and the industry's best in construction, ratings and safety standards. Over 38 million Belkin SurgeMaster® units are protecting consumer electronics worldwide!

BENEFITS:

- Earths AC power with 3-line protection through all 6 sockets
- Delivers optimal, safe AC power through a heavy-duty cable
- Safeguards your phone, modem and DSL lines, while making two connectors out of one
- Safeguards your modem, Ethernet and DSL lines with both network and phone line protection
- Creates an uncluttered workstation area free of cable-tangling mess
- Accommodates large, AC block-style plugs without covering an unused socket
- Connected Equipment Warranty: Belkin will repair or replace any equipment damaged by a surge, spike or lightning strike while properly connected to a Belkin SurgeMaster®, up to the maximum value stated on the front of the package

SPECIFICATIONS:

- Continuous Duty Electrical Rating: 250V/13A/50Hz/3,250W
- Maximum Energy Dissipation: 1,940 Joules • L-N: 540J • L-E: 540J • N-E: 540J • Telephone Line: 320J
- Maximum Spike Current: 45,000 Amps L-N: 15,000A • L-E: 15,000A • N-E: 15,000A
- Maximum Spike Voltage: 6,000 Volts
- Response Time: <1 Nanosecond
- EMI/RFI Noise Filtration: 150kHz~100MHz up to 58 dB Reduction

£100,000
CONNECTED EQUIPMENT WARRANTY
LIFETIME PRODUCT WARRANTY

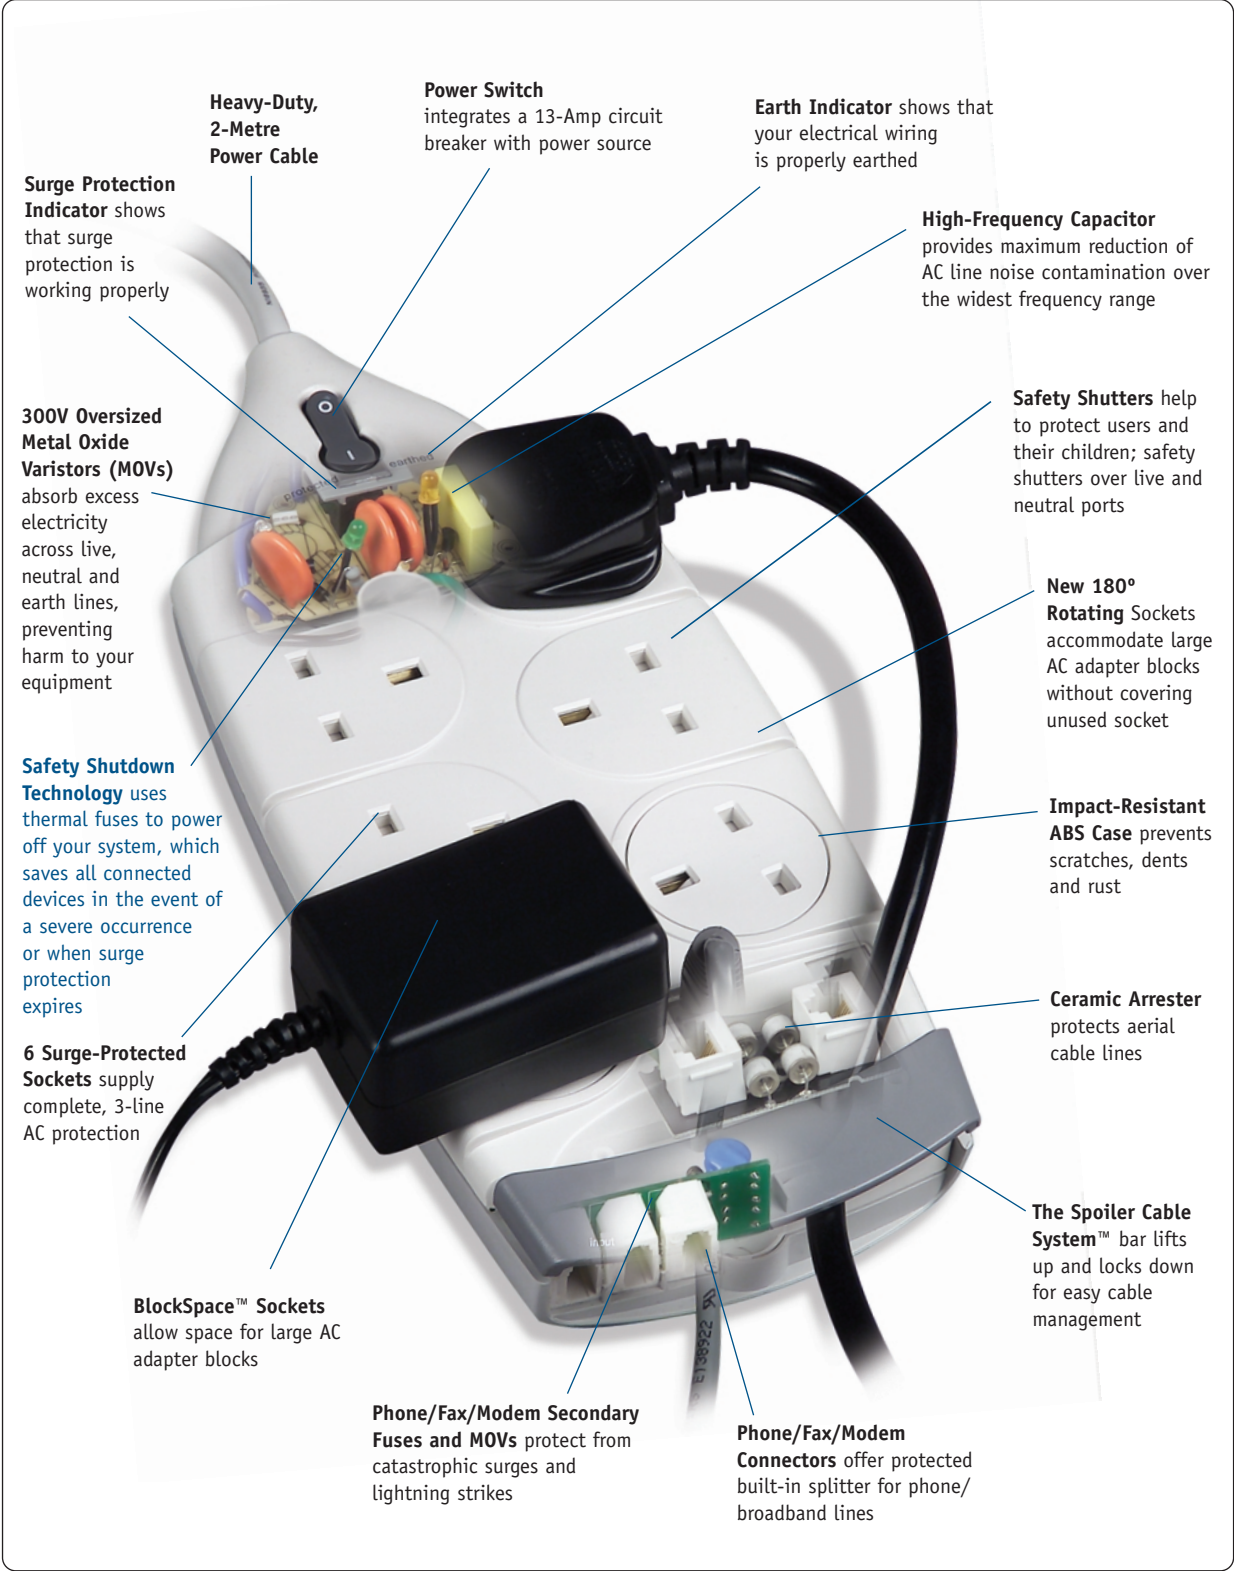

This product is certified to applicable British safety standards: BS1363/A; BS5733

Part Number	Description
F9S624uk2M	6-Way SurgeProtector, TEL/RJ45 protection, 2m cable

PRODUCT FEATURES

- Surge Protection Indicator** shows that surge protection is working properly
- Heavy-Duty, 2-Metre Power Cable**
- Power Switch** integrates a 13-Amp circuit breaker with power source
- Earth Indicator** shows that your electrical wiring is properly earthed
- High-Frequency Capacitor** provides maximum reduction of AC line noise contamination over the widest frequency range
- Safety Shutters** help to protect users and their children; safety shutters over live and neutral ports
- New 180° Rotating Sockets** accommodate large AC adapter blocks without covering unused socket
- Impact-Resistant ABS Case** prevents scratches, dents and rust
- Ceramic Arrester** protects aerial cable lines
- The Spoiler Cable System™** bar lifts up and locks down for easy cable management
- Phone/Fax/Modem Secondary Fuses and MOVs** protect from catastrophic surges and lightning strikes
- Phone/Fax/Modem Connectors** offer protected built-in splitter for phone/broadband lines
- 300V Oversized Metal Oxide Varistors (MOVs)** absorb excess electricity across live, neutral and earth lines, preventing harm to your equipment
- Safety Shutdown Technology** uses thermal fuses to power off your system, which saves all connected devices in the event of a severe occurrence or when surge protection expires
- 6 Surge-Protected Sockets** supply complete, 3-line AC protection
- BlockSpace™ Sockets** allow space for large AC adapter blocks
