hp designjet multi-roll feeder

For CAD designers and GIS users who need to print high quality, large format outputs in order to review, communicate and document their designs, the HP Designjet 1000 plus series delivers the high performance and production speeds expected by large workgroups of 10 or more people.

- The HP Designjet 1055cm plus printer quickly prints stunning, professional images and photo-quality graphics that can make the difference between losing and attracting business.
- The HP Designjet 1050c plus printer delivers high quality communications by processing and printing large-format colour line drawings at impressive speeds.
- The concept of unattendedness is redefined with the multi-roll feeder for the HP Designjet 1000 plus series and the HP Designjet 1000 series combined with the benefits of the modular ink system.

### Achieve uncompromising line and image quality every time.

- Brilliant photo-quality images with printing resolution of true 600 dpi in colour.
- Precise ink placement and addressable 1200 dpi monochrome ensures crisp, sharp lines and text.

### Fast and reliable large format production printing.

- Achieve fast processing with the standard memory of 64 MB, upgradeable to 256 MB for even faster processing and more complex plots.
- The HP Designjet 1055cm plus printer has a built-in 7.5 GB hard disk and the HP Designjet 1050c plus printer has an optional 2 GB hard disk.
- Ensures high speed printing through one-inch printheads and 512 nozzles without sacrificing print quality thanks to HP Jetexpress technology.
- Get output line drawings in fast mode: 45 seconds (A1) and images in fast mode: 85 seconds (A1).
- Faster data transferring with the new HP Jetdirect 610n print server.

### Increase productivity while enjoying an unparalleled degree of unattended media management.

- The multi-roll feeder enables unattended use of different media types and sizes.
- Long-life, self-cleaning print heads mean minimal user intervention.
- Snap-in, large capacity ink cartridges (up to 350 ml) allow for longer periods of printing.

### HP Designjet multi-roll feeder.

- Unattended media management solution.
- Continuous unattended printing that increases productivity where high volume printing is required.
- Printing convenience through the simultaneous loading of different media types and sizes.
